ATTENTION HUNTERS!

PICK-UPS

Be ready with your gear beside the pad, loose items secured, **hats off**, ready to go.

If you are in the hills waiting for a pick up, if we are not there within half an hour of darkness, then Collection will then ASAP the next day. You need to be packed and ready to go right up to that time. Do NOT decide "oh they are not coming today" and go off hunting, please wait at your designated pick up site.

FULL CARCASSES.

We will not fly out full carcasses!

You need to bone out your meat or quarter it up,
Legs are ok.

FIREARMS

Please ensure your rifle bolt is removed and magazine is removed or empty before flight.

HUNTING / FISHING PERMITS

Please obtain your own hunting or fishing permits from DOC or FISH AND GAME before your hunting/fishing trip.

INFORMATION FOR HUNTERS

Thank you for flying with Heli-Hire Ltd

We ask that your hunting party reads the following information and adheres to our procedures in order to remain safe, help operations run smoothly and ensure sites remain clean and tidy for other users.

We appreciate that many of you have flown before but ask that you still follow our procedures.

- ✓ Follow all pilot instructions.
- ✓ Remain calm around the aircraft.
- ✓ Never walk around the rear aircraft.
- ✓ Only the pilot is to load and unload the aircraft.
- ✓ Dangerous goods – You must declare any dangerous goods to your pilot.
- ✓ Once landed, remain seated until your pilot opens your door to disembark the aircraft.
- ✓ When unloading the aircraft the pilot will pass your gear to you to place on the ground. Carry long objects horizontally below shoulder height. **DO NOT THROW** any gear. **DO NOT RUN** after excited dogs.
- ✓ Keep in mind you are landing in remote sites so beware of uneven surfaces and rising ground as this reduces the clearance of the main rotor and you.
- ✓ Ensure all your gear is secure. Place all light objects under heavy objects, personally hold onto jackets and hats etc so there is no loose objects.
- ✓ Ensure camp fires are completely out before leaving.
- ✓ Bring **ALL** your rubbish out with you, advise the pilot if there is extra rubbish at the campsite. Do not leave animal carcasses close to camp site.
- ✓ Consider your weight flying in, if maxed out, we can't bring extra weight out, i.e. meat.
- ✓ Ensure animals for meat are boned out. Full deer carcasses can be slung out at extra cost, talk to your pilot.
- ✓ Notify your pilot if you have lost any dogs on your trip, we can often find them for you.
- ✓ Overdue aircraft for pickup - Don't panic and remain at your campsite. Our company system and staff know you are there and will be sorting arrangements to have you collected as soon as possible. Many factors can contribute to an overdue aircraft such as weather, unscheduled maintenance and work load.
- ✓ Didimo - ensure all your gear is clean and dry as possible to help prevent the spread of Didimo.

We appreciate your co-operation. Remember to be safe out there and enjoy your hunt.

Kind Regards,

David Lealand

Chief Pilot/CEO
